

# MAXIMO<sup>TM</sup>

## PRE-FINISHED

A CURATED SURFACE  
COLLECTION CELEBRATING  
CRAFT AND VISUAL DEPTH

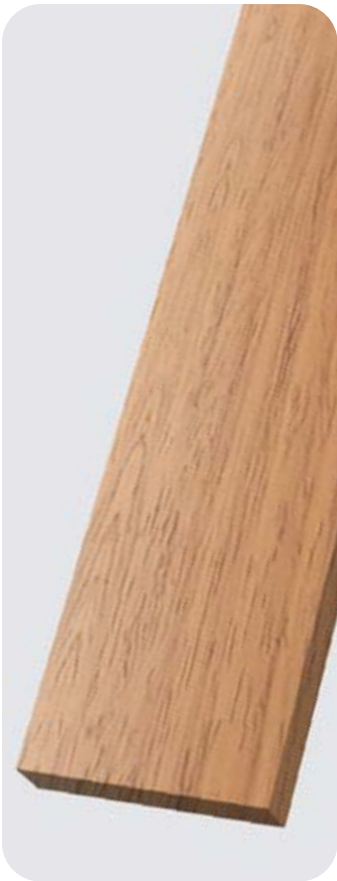

# The wood you love, with the finish that defines it

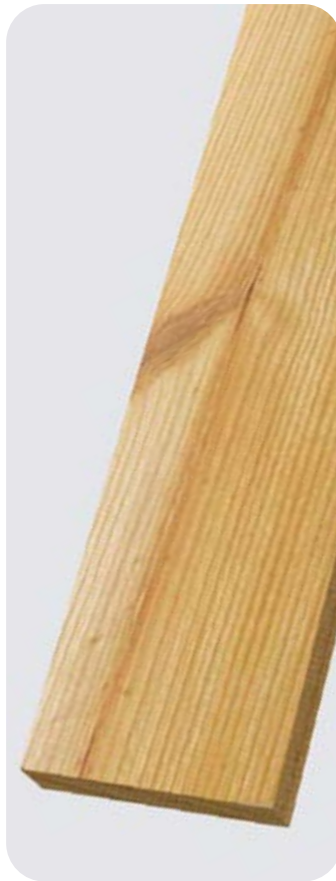

Maximo Pre-Finished is a curated line of pre-applied surface treatments that unite color and texture in perfect harmony. Crafted with the same precision and craftsmanship behind Maximo Thermo, Pre-Finished brings out the tactile and visual richness of wood—highlighting grain, depth, and natural character through layered finishes that also shield and preserve its surface for lasting beauty.

## Available Species

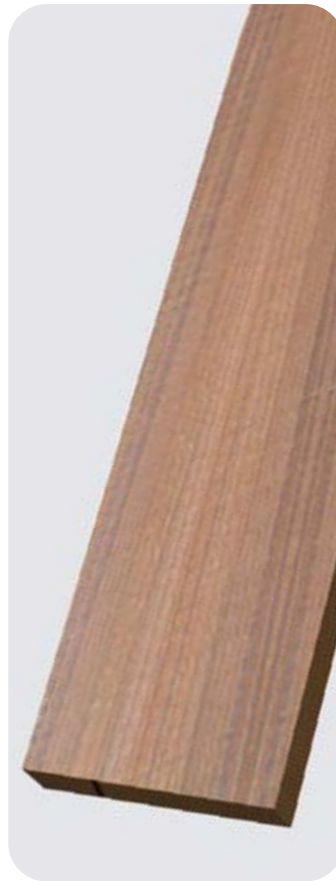

---

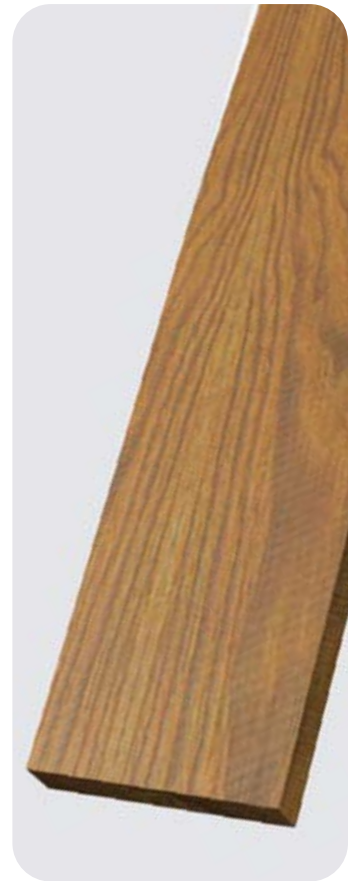

THERMO  
AYOUS

SCANDINAVIAN  
THERMO

THERMO  
CLEAR RADIATA

THERMO  
ASH

## Texture Finishes

---

**ROUGH SAWN**

**CHARRED**

**WIRE BRUSH - SUBTLE**

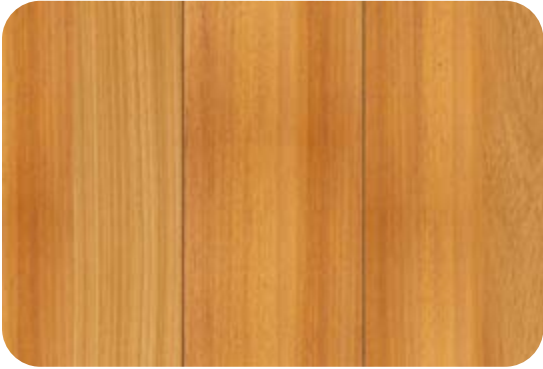

**WIRE BRUSH - PRONOUNCED**

**NO TEXTURE / SMOOTH**

## Color Finishes

---

### TEAK TRANSPARENT

---

**Pigment:** Yes

**Wood Grain Appearance:** Visible

**Finish:** Satin-Matte

**Use:** Indoor & Outdoor

**Opacity:** Transparent

**Product Type:** Water-Based

### OAK TRANSPARENT

---

**Pigment:** Yes

**Wood Grain Appearance:** Visible

**Finish:** Satin-Matte

**Use:** Indoor & Outdoor

**Opacity:** Transparent

**Product Type:** Water-Based

### EBONY TRANSPARENT

---

**Pigment:** Yes

**Wood Grain Appearance:** Visible

**Finish:** Satin-Matte

**Use:** Indoor & Outdoor

**Opacity:** Transparent

**Product Type:** Water-Based

### WALNUT TRANSPARENT

---

**Pigment:** Yes

**Wood Grain Appearance:** Visible

**Finish:** Satin-Matte

**Use:** Indoor & Outdoor

**Opacity:** Transparent

**Product Type:** Water-Based

## DEEP BLACK OPAQUE

---

**Pigment:** Yes

**Wood Grain Appearance:** Softly Visible

**Finish:** Satin-Matte

**Use:** Indoor & Outdoor

**Opacity:** Opaque

**Product Type:** Water-Based

## WHITE OAK TRANSPARENT

---

**Pigment:** Yes

**Wood Grain Appearance:** Visible

**Finish:** Satin-Matte

**Use:** Indoor & Outdoor

**Opacity:** Transparent

**Product Type:** Water-Based

## BANGKIRAI TRANSPARENT

---

**Pigment:** Yes

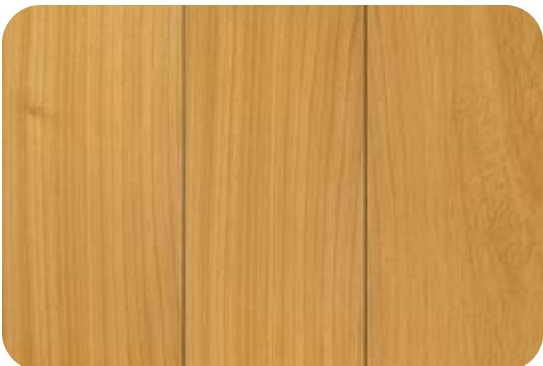

**Wood Grain Appearance:** Visible

**Finish:** Satin-Matte

**Use:** Indoor & Outdoor

**Opacity:** Transparent

**Product Type:** Water-Based

## CONDITIONER

---

**Pigment:** No

**Wood Grain Appearance:** Visible

**Finish:** Satin-Matte

**Use:** Indoor & Outdoor

**Opacity:** Transparent

**Product Type:** Water-Based

## What Maximo Pre-Finished Adds

---

- **Factory Precision**

Each board is finished under controlled conditions to achieve its precise color or texture design, ensuring flawless consistency and lasting protection.

- **Pigment & Texture Shield**

Advanced, lightfast pigments and multi-layer coatings form a protective shield that resists weathering, UV fade, and everyday wear—while preserving the tactile depth and clarity of the grain.

- **Superior Grade**

Engineered with automotive-grade polymer technology and precision finishing systems to deliver dense, resilient surfaces that stand up to harsh climates and high-traffic use.

- **Speed and Efficiency**

Factory-applied finishes arrive ready to install, dramatically reducing on-site finishing steps, curing time, callbacks, and overall installation costs.

- **Endless Possibilities**

A curated spectrum of tones, sheens, and brushed textures can be mixed and matched to create immersive sensory and aesthetic experiences—bringing any architectural vision to life.

- **Sustainable VOCs**

Low-odor, water-based coatings are formulated with reduced VOC content and meet strict California and international environmental benchmarks, supporting healthier environments indoors and out.

- **Sustainability in Every Layer**

From primers to topcoats, every layer is engineered for long-term performance, minimal maintenance, and lower environmental impact—protecting the material while honoring its natural beauty.

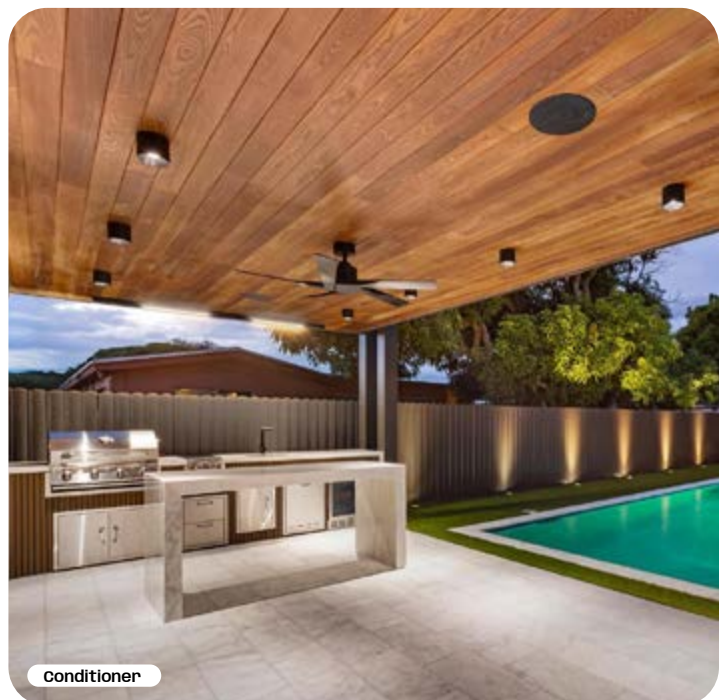

## Built on Maximo Thermo's Proven Performance

Maximo™ Thermo is real wood, redefined through a patented thermal modification process that uses only heat and steam – no chemicals. Each board is transformed at the cellular level for superior stability, with reduced moisture content and minimized natural sugars that help resist warping, shrinking, and decay. Delivered pre-finished and precision-milled, Maximo Thermo offers a clean, consistent look with faster installation and less on-site work. It's the natural beauty of wood, enhanced for lasting performance indoors or out.

- **Durability:**  
Naturally resistant to rot, insects, and decay (Class 1 durability on all species).
- **Ultra Stability:**  
Up to 3x lower moisture content, dramatically reduced swelling, shrinking, and warping.
- **20-Year Warranty:**  
The wood is backed by a proven track record in harsh climates.

## Recoat cycle

---

Maximo Pre-Finished is crafted to deliver long-lasting beauty with minimal effort, giving you the freedom to enjoy your wood surfaces without constant upkeep. Interior applications remain virtually maintenance-free, while exterior environments naturally vary. Sun exposure, wood species, and local conditions can influence how often a fresh coat is needed.

**Interior:** Care-Free

**Exterior:** 3-4 years typical - No sanding required
